

Diving Locker

Want a Change of Pace?

If you're looking for a safe, challenging and rewarding career move, why not consider the Navy's diving community? Here, the opportunities are boundless, the benefits are many, and job satisfaction is guaranteed.

Our community has one of the lowest on-the-job fatality rates in the Navy. Why? Because we receive a high degree of training, and because we use operational risk management in all of our day-to-day activities.

Here's a breakdown of the types of diving we do in the Navy:

- underwater ship's husbandry 33 percent
- training, qualification and research 36 percent
- special warfare operations 17 percent
- explosive ordnance disposal operations 10 percent
- other 4 percent

For an exciting change to your naval career, talk to your command's career counselor, or visit these web sites for more information on diving programs in the Navy:
