

Here's Mud in Your Eye ...

...or maybe it's concrete, melted plastic, or some chemical. Whatever the concoction is on this face shield, you can be sure of one thing. The wearer was glad to have been wearing it.

Personal Protective Equipment (PPE) is designed to protect you from harm. "I'll be careful not to splatter" or "It's never splashed in my face before", might be words you'll soon eat, along with some other gook in your mouth as you run to the eyewash station.

Take the time to put on the right PPE, and you just might save face, literally.
